FULL-TIME EXPERIENCE:

4/07 to 1/10 **THE MITRE CORPORATION**, Mclean, VA
Design Specialist
The MITRE Corporation is a not-for-profit organization chartered to work in the public interest. Applying expertise in systems engineering, information technology, operational concepts, and enterprise modernization to address our sponsors' critical needs.

As a design specialist at THE MITRE Corporation, created complex visual storyboarding presentations, video productions for training and education. Generated concept designs and 2D models of theoretical products and ideas, while also assisting in production of graphics and illustrations for various web and multi-media presentations. Created interactive information graphics for proposals and presentations. Coordinated publication design for marketing and branding campaigns that supported the initiatives and concepts of the non-military, military and intelligence communities.

3/06 to 4/07 **SODEXO**, Gaithersburg, MD
Graphic Designer - RFP / RFI
Sodexo, Inc. is the leading provider of integrated food and facilities management services in the US, Canada, and Mexico

As a graphic designer for Sodexo, efficiently managed and coordinated design and production from concept to completion of RFP/RFI for government and private corporations. Also worked closely with clients, sales staff, legal and finance staff to coordinate completion of projects. As part of a green initiative, successfully designed and produced an electronic proposal as an interactive PDF that included flash and video files. Other duties included designing brand and marketing materials, imagery research, collection, correction and manipulation, and package design.

4/05 to
10/05

KMI MEDIA GROUP, Rockville, MD
Graphic Designer - Publication & Periodicals

KMI Media Group is the leading independent publisher of targeted information about military technologies and operations, focusing on information required by Congress to facilitate the acquisition process.

As a graphic designer for KMI Media Group, managed and coordinated production of monthly military periodicals (MILITARY MEDICAL/CBRN TECHNOLOGY & MILITARY INFORMATION TECHNOLOGY). Worked closely with sales staff to coordinate advertising layout and design to maximize the visual impact for advertisers. Worked with printers to ensure quality control of final publications. Additional work for publications included creation of digital lead-art for feature articles and creation of additional images for specific military projects and conceptual military applications. Also coordinated and directed a company-wide software transfer from Quark to Indesign.
